Diego Morin – Frontend Developer

⦿ Venezuela ✉ diego.morin321@gmail.com ▢ +584123266310 ▥ in/diegomorin30/

SUMMARY

I am a Front-End developer with more than 2 years of experience. I have participated in the entire software lifecycle, collaborating with other areas to analyze, desing, and implement the necessary software, always thinking about scalability

EXPERIENCE

Frontend Developer

GAO Inversiones   **October 2022 – Present, Miranda – Venezuela**

· . I was in charge of creating a new architecture to improve perfomance
· Define timelines and tasks for the team, review PR's and assist other enigers

Full Stack Developer

911 Carrizal Venezuela   **January 2023 –April 2023, Carrizal Venezuela**

· Designed and developed interfaces for both the login and user management of the 911 database.
· Created a modal that enabled users to generate and submit tickets to the competent entity of the case, including a checklist and other functionalities.
· Utilized APIs to ensure proper transmission of information between different components of the system.

PROJECTS

Personal Portfolio

https://diegom30.github.io/portafolioDiegoMorin · January 2023 – April 2023

· My portfolio was built using React and incorporates technologies such as Three.js, Tailwind, and Styled Components. With it, I aimed to showcase my skills in web development, as well as my ability to create aesthetically pleasing and functional user interfaces. I also included some of my notable projects to highlight my technical expertise in action. Overall, my portfolio is a demonstration of my dedication to developing high-quality software solutions and my passion for creating unique and memorable user experiences.

EDUCATION

Computer Engineering
